EDUCATION

University of Pennsylvania — Philadelphia, PA
Master of Applied Science in Computer Science (3.6/4.0 GPA) — Expected December 2026

University of Southern California — Los Angeles, CA
M.S. in Integrated Design, Business and Technology (4.0/4.0 GPA) — August 2023

EXPERIENCE

MaiAgent - B2B AI SaaS Startup — Taipei, Taiwan
Generative AI Product Manager Intern — June 2026 – August 2026

- Built client-specific AI proofs of concept to automate workflows, achieving 95% chatbot response accuracy in testing through prompt engineering, model evaluation, and automated testing
- Led creation and launch of MaiAgent's product cookbook, turning 40 enterprise AI use cases prioritized from support tickets and usage analysis into interactive demos and implementation guides; attracted 100+ daily users with typical visits exceeding 3 minutes

Taiwan Semiconductor Manufacturing Company (TSMC) — Taichung, Taiwan
Product Manager/Engineer Intern — July 2025 – August 2025

- Mapped end-to-end air pollution source-tracing workflows across manufacturing teams, identifying bottlenecks caused by fragmented systems and manual reporting processes
- Developed and deployed a FastAPI service to consolidate environmental monitoring data from multiple systems into internal tooling, reducing manual data collection time by 40%

Stealth Company - B2B AI SaaS Startup — Remote
Product Manager — May 2023 – October 2023

- Defined the product roadmap and success metrics through market research and customer interviews, supporting go-to-market planning for an AI customer support platform
- Implemented an LLM-powered customer support solution that automated common support requests and enabled 24/7 customer assistance without additional support staffing

Amazon — New York, NY
User Researcher (UX) Intern, Amazon Connect Team — June 2022 – September 2022

- Led stakeholder interviews across enterprise onboarding teams and solutions architects to map customer onboarding journeys and identify usability issues affecting time-to-value
- Translated research findings into onboarding improvements and product recommendations, aligning 20+ cross-functional stakeholders on future roadmap priorities

Internet Brands — El Segundo, CA
Associate Product Manager/Product Analyst — January 2020 – December 2021

- Owned requirements and prototyping for the migration of a product generating $10M in annual revenue from third-party infrastructure to an in-house platform, reducing integration risk and vendor dependency
- Managed delivery of a new SaaS product segment across the full product lifecycle on a platform serving 50M+ annual users, expanding into new customer segments
- Conducted 150+ usability studies, experiments, and competitive analyses, informing 10+ product redesigns that increased conversion by 20% and reduced bounce rates by 35%
- Led cross-functional delivery across engineering, design, and business teams, improving prioritization processes and reducing project delivery timelines by 50%

SKILLS

Technical: Python, SQL, FastAPI, HTML/CSS/JavaScript
AI: Prompt engineering, LLM evaluation, automated testing, Claude Code, AI-assisted development
Tools: Jira, Figma, Excel, Google Analytics, Tableau, Adobe Target, Confluence
Languages: English (fluent), Chinese (fluent)
